

Thailand Center of Excellence for Life Sciences

Thailand Center of Excellence for Life Sciences (TCELS) is the focal point of all business, research and investment in the rapidly growing life sciences industry of Thailand. Established in 2003 as a public organization, it functions under the auspices of the Ministry of Science and Technology.

TCELS has the vision to make Thailand a world-class center for life sciences innovation and investment. In 2012 it has been awarded the 'Outstanding Public Organization in Promoting Pharmacogenomics and High Value-added Biomedical Products' by the Senate of Thailand.

For investors and business developers in the field of life sciences, TCELS provides the perfect support with its services of business matching, commercialization, intellectual property rights protection, patents, pre-clinical testing, clinical research, tax incentives and legal consultations.

TCELS is the prime knowledge management hub for all life sciences related information in Thailand. It has initiated Thailand Life Sciences Business Forum for business networking. Through collaborative efforts TCELS is continuously expanding horizons and widening networks for the life sciences industry, not only in Thailand but the entire ASEAN region.

On behalf of the Ministry of Science and Technology of Thailand, TCELS and six other co-hosts are organizing the ASEAN Life Sciences Conference and Exhibition 2013, at the Queen Sirikit National Convention Center in Bangkok, Thailand, from 17-19 July, 2013.

The Future of Life Sciences is Here!

Organizers

WHAT?

ASEAN Life Sciences Conference and Exhibition 2013
Theme: The Future of Life Sciences is Here!

WHEN?

17-19 July, 2013

WHERE?

Queen Sirikit National Convention Center, Bangkok, Thailand

WHO?

1,000 participants from more than 10 countries;
Government representatives, scientists, academicians, researchers,
entrepreneurs, industry experts and private sector representatives.

WHY?

- To ensure a bright future full of opportunities for the life sciences businesses and industry of ASEAN countries;
- To provide a glimpse into future innovations, new technologies and industries for medical life sciences clusters;
- To provide a platform for ASEAN regulatory harmonization and encourage life sciences business partnering and matching among ASEAN member countries and others.

HOW?

ASEAN Life Sciences Conference and Exhibition 2013 will comprise -

Three key events:

- 8th Asia Bio Business Partnering 2013
- 10th International Society for Pharmaceutical Engineering (ISPE) Thailand Conference & Meeting
- ISPE Asia Pacific Affiliate Council (APAC) Meeting.

Four-fold activities:

- Conference
- ASEAN Pavilion Zone
- Exhibition Zone
- Business Matching / Networking Business.

HOSTS:

- Ministry of Science and Technology of Thailand
- Thailand Center of Excellence for Life Sciences (Public Organization)
- International Society for Pharmaceutical Engineering (ISPE) Thailand Affiliate
- Thai Pharmaceutical Manufacturers Association (TPMA)
- Thai Industrial Pharmacist Association (TIPA)
- Faculty of Pharmaceutical Sciences, Chulalongkorn University
- Food and Drug Administration Thailand
- The Thai Association for Biotech Industries (ThaiBIO)

About ASEAN Life Sciences Conference and Exhibition 2013

ASEAN Life Sciences Conference and Exhibition 2013 is the first of its kind event in the region. It will launch ASEAN as the hub of all life sciences research, innovation and investment. It expects to open avenues for new business opportunities and partnerships in the promising market of health and wellness industry in the region.

This three-day conference will be addressed by some eminent speakers and will include significant panel discussions on pertinent issues. The five tracks of the conference are as follows:

- The New Advanced Technology in Life Sciences Engineering
- The Trend of Life Sciences Products Regulations in ASEAN
- The Trend of Pharmacogenomics in South East Asia
- The Opportunities for Life Sciences Products in ASEAN: Biopharmaceuticals, Medical Devices and Robotics, Herbal Medicines and Cosmetics
- The Life Sciences Business Trends in ASEAN.

Another highlight will be the ASEAN pavilion zone and the exhibition zone for government and private sectors. Here participants can showcase and promote their life sciences related technologies, innovations and products.

ASEAN member countries are invited to reserve their booths at the ASEAN pavilion zone. Private sector companies and businesses are also encouraged to reserve their booths at the exhibition zone. Registration details can be obtained from www.asean-lifesciences.org.
